Hi Kingsley,

Cool guitar! Likely made by the Catania factory. It's a nylon string, there a few people who collect some of the old Sicilian guitars. You might try listing on Reverb or put an add in the classified section of our forum.

Thanks!

Michael

Gentlemen, I saw your website searching for possible buyer of my guitar, an old Sicilian guitar I inherited from my grand father and never used. I saw one similar mentioned in your blog so I was wondering if you might be interested in it. The guitar is in good condition but would need a refurbish to be fully back in its original shape. Here some pics: <https://gruppobpc.egnyte.com/fl/d4bNHBVUCy> the guitar is in Milan, Italy, and I can ship (I live in Canada, I can ask my brother to do so). Thank you, kind regards Kingsley Borello
