Letter of Authenticity

The guitar pictured below was made by me. It is #007 and that number-mark is written on the inside of the soundboard behind the 5th brace. This guitar was made before I had designed either a headstock logo or a label and as such, it has neither. It is, however, authentic. Pictures and videos of the guitar being played between 2007 and 2016 by its original owner, David Langenes, can no doubt be found online to supplement this COA. David bought it from me after playing it on stage on the opening night of Djangofest Northwest 2007 at the Whidbey Island Performing Arts Center (WICA) on Whidbey Island, Washington, USA.

Robert L Holo,
Holo Guitar
